PROFILE

A skilled Python developer with 1.6 years of experience in data extraction from PDF files, data preprocessing and data visualization using Power BI. Published articles on GeeksforGeeks and passionate about learning and applying new technologies. Looking for a challenge role to enhance skills and contribute to a dynamic team.

TECHNICAL SKILLS

- Python
- Basic Machine Learning
- SQL
- Statistics
- Git
- Technical Writing

TOOLS AND LIBRARIES

- Power BI
- Regex
- PyMuPDF
- Pandas
- Spacy
- Jupyter Notebook

EXPERIENCE

PYTHON DEVELOPER

HCL Technologies

September 2021 – Present

- Developed Python Scripts to extract data from PDF and HOCR files and automate the process, reducing manual effort.
- Performed Text/Data preprocessing using Pandas.
- Created data visualization using Power BI
- Done EDA on top of the data and found inferences that will be useful for implementing the machine learning algorithms.
- Wrote technical articles on GeeksforGeeks, sharing knowledge and experience with the community.

EDUCATION

Bachelor of Technology in Computer Science and Engineering
Vaagdevi Engineering College
Graduated 2021
